Hello,

Please see the attached document. This is the 1<sup>st</sup> draft of the Henniker School District Budget that was distributed last evening. We are still compiling from our archives, the reconciliation reports and will get those to you as soon as we have all of them. You also requested estimated revenue for the upcoming school year. Revenues have not yet been estimated with the exception of Adequacy aid. The state estimates next year adequacy for Henniker School District at \$2,080.195 which is \$31,890 more than the current year. The current year Adequacy Aid was reduced by the state by \$28,763.06 to \$2,048,304.77. This may not be the final number as the final adjustment for the 16-17 year will be made known in April of 2017.
