Subject: RTK request NEC consent agenda item

Attached is my request for information regarding the March 21, 2017 Board of Selectmen agenda item referred to as the NEC Performing Arts Center.

Mr. Chairman, my request for this information is to confirm that once again it appears the board attempted to use email, outside of a board meeting, to obtain consent for a letter to be sent to a government agency that NEC was attempting to procure a grant for construction.

It is unconscionable that this board continues to act outside of duly called meetings. Seeking approval via email and then placing the item on the Consent agenda (and not posting the consent agenda items for public viewing) is exactly the incorrect procedures that Henniker resident Mr. Arnie Huftalin questioned this board about on January 5, 2016. To be continuing this activity over one year later is absolutely unacceptable.

Please supply the documents found in my attached request
